WHATS BEEN GOING ON AT THE MUSEUM

Combined Holiday Programme with the Morrinsville Library and Gallery was a success with 11 participants, their artworks are on display at the museum.

A small group of volunteers and committee members took part in a workshop at the museum a couple of weeks ago. We have been working on our mission statement and we now have our vision for the future and our values that have been included in our draft five-year strategic plan.

This is our vision for the future.

“A vibrant museum connecting the past with the future”.

We will make sure this vision will guide us in-decision making in the museum as we work to make our museum the absolute best it can be.

We will continue to develop our strategic plan to enable us to present it at our Annual General Meeting in July.

Remember we change our displays regularly, so please call in and visit.
